

## **CDR's Parsons Presents at 2005 International ISPI Conference in Vancouver**

Nancy Parsons, president of CDR Assessment Group, presented at the 43rd Annual ISPI International Performance Improvement Conference on April 15, 2005 in Vancouver, BC, Canada.

Parsons' presentation, "**Measuring Inherent Personality-based Leader Risks Impact on Performance**" is part of *The Future of High Performance Technology* track. She shared the CDR Risk Assessment results and 360 performance data of leaders, showing how these personality-based risks yield reliable root cause performance information that is not explained or measured by contemporary 360 feedback instruments.

ISPI has more than 10,000 members from more than 40 countries, many of whom attended this conference. Parsons is among an elite group of speakers selected to present at the conference.
