Advanced CDR Executive Coaches/Consultants Training for

STRATEGIC EXECUTIVE TEAM DEVELOPMENT

July 16, 23 & August 5; Three 90-minute Sessions

Not Your Typical Team Development Process.

This advanced training uses real profile data and the True Talent Profile™ (CDR 3-D Suite Assessment) to understand team dynamics and create actionable plans. Join us for an interactive experience with case studies and practical tips to drive lasting team success.

Why CDR Strategic Executive Team Development?

Focus on the people on the team first to deliver sustainable results. Then set goals, clarify roles and align performance with vision and mission to align the process.

Use actual profile data of the team members for design. Learn to design and deliver more effective team sessions with the CDR way, using actual character traits, risk factors, and driver & reward needs to drive impactful team development.

Identify the actual dynamics of a particular team. CDR's deep dive team development process identifies traits that hinder team performance. Once leaders are self-aware, after confidential debriefs, the eye-opening and sustainable team development can begin.

Join our Advanced Training for CDR Certified Coaches to design and facilitate data-driven team development for measurable success.
